LET'S ENGAGE

Time to Move from 'Eye Care' to 'I Care'!

Bustling outpatients, surgeries in full swing, outreach camps screening 100's, we are slowly going back to activities we were familiar with prior to the onset of COVID-19. Each of us across Sankara Eye Foundation can be proud of how we stood up to cater to the healthcare needs during this phase.

The lockdowns also allowed us to re-examine, what is important? We realized the need to protect our families and how nature is critical for us as humans to prosper. It also showed how crucial patients are for us as an organization and also as individual health care workers.

November 11th is World Quality Day, with a theme of, "Sustainability: Improving Our Products, People and Planet." This is a perfect moment for each of us to demonstrate leadership.

Can we;

- **Ask!** Question what can I do better, to make my patient's experience better?
- **Innovate!** How can we innovate from "Near Misses", such that they don't occur again?
- **Act!** Can I be a role model switching off devices when not needed? Influence patients & their families during their visit to **Reduce, Recycle & Reuse?**

'Sankara', as Dr. RVR always fondly recollects is not an institution but a movement. Each of us has a responsibility and an opportunity to co-create a perfect experience for our patients and influence how the earth is sustained for our future generations. This can only happen with each of us taking the first step.

A TEENAGE DAUGHTER OF ABVEL VILLAGE GETS GIFT OF VISION AT SEH-ANAND

Wings To Fly High - Vision To Sense The Delight!

Pre-Surgery

Post-Surgery

Ms. Sudhaben Shivabhai Solanki - a teenage student from Abvel, Kapadvanj, Kheda District, aged 14, feels confident following her right eye surgery from the doctors of SEH-Anand. Ms. Sudhaben's parents came to know about Sankara Eye Hospital through a camp organizer, and it changed their daughter's life.

Ms. Sudhaben's parents were unaware that cataracts had compromised her vision since she was a toddler. However, teachers noticed her writing difficulties while she was in fifth grade. After receiving numerous complaints from instructors concerning her vision difficulties, her parents contacted Sankara with the help of a camp organizer.

On September 3, 2021, she received successful Congenital Cataract Surgery on her right eye, and she will return for the left eye operation after the Diwali celebrations. Ms. Sudhaben and her parents were overjoyed after observing a significant improvement in her vision.

The SEFI's 'Gift of Vision Program' is a source of pride for the organization. The joy multiplies when the child is a girl, who can now fly high to achieve her goals without encountering any hurdles.
